Preliminary Note: This office action contains new grounds of objection and rejection, but these related only to the content of the declaration.

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The declaration states:

*“Applicant discovered that the claims of the issued patent do not adequately cover articles of manufacture. Applicant hereby indicates her intent to broaden the claims in this re-issue application.”*

However, the claims added beyond those in the original patent (U.S. Patent 5,832,453) are addressed to more than just articles of manufacture. Accordingly, the statement in the declaration is not consistent with what is currently claimed. A new declaration is required which addresses rationale for submitting the new method and system claims, in addition to the newly submitted article of manufacture claims.

Claims 1-123, 158-159 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Claims 1-123 and 158-159 contain allowable subject matter, and the above rejections and objections will be withdrawn upon appropriate correction of the declaration.
